Art Unit: 3711

Claims 10-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant's remarks indicating that applicant intends to limit the claimed system to a fiber optic system have been noted. However, the claims are not clear in this regard. The fiber optic cable is nominally recited in the preamble of claim 10, but is positively referenced and limited in the body of each claim and in the dependent claims. If applicant intends to limit the claimed system to those with fiber optic cables the fiber optic cable should clearly be recited as an element of the system along with the canister, winch, actuator etc.

Applicant's arguments filed 7/18/03 regarding the art have been fully considered and the rejections have been withdrawn based on applicant's statement that the claims are intended to be directed to a fiber optic system of the type claimed.

Applicant's arguments filed 10/20/03 with regard to claims 10-13 have been fully considered but they are not persuasive. Applicant has not amended claim 10 in the manner that claim 1 was amended.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3711

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
